Fill in
the
form

Please fill in the gaps with the words you have seen during the game if they fit, or from your own knowledge.

Use the words you saw during the game

For some of the gaps you need to use the words you saw during the experiment. But some others are not related and you need to use the words that you know from before.

Don't worry

It is not a school test. Just try to remember what you learned and write it. If nothing comes to your mind for some of the gaps just put a question mark: ?

Spelling doesn't matter

The spelling does not matter. If you just remember how the word sounded like, that is enough. For example if you don't remember how to write "Mountain" but you remember how is the word, just write: "Montan" This is still fine.

Don't get help

Please fill the form all by yourself and do not ask anyone for help. Do not use internet or dictionary to find out about the answers because there is no grading. There is no winning or losing in the form. So do it alone and make sure you submit it in the end.

airplane's _____ is a good shelter. That part of the airplane is designed to comfort passengers

Republic, and she will become our _____ to talk to other governments.

23. He also found a/an _____ in the cockpit of the airplane which was disattached from the dashboard, and he rushed to climb a tree to measure how high it was. You know, even though he is a strange guy, he turned out to be quite fun! *

24. After getting back to us, he said he could clearly see the way. We went in the direction he told us, and soon we found ourselves at the edge of a/an _____ (which is a natural wall. Like a mountain but just going up suddenly), with a wide valley under us. *

25. The way back was nice and there was no storm like yesterday. It was already getting dark by the time we reached the road and found a bus stop. At the central station we said goodbye to each other, I carefully crossed the _____ and took the bus home. *

26. As soon as I entered the house, my mom rushed at me and started yelling saying how worried she was. She said I never keep my _____ because I said I would call her on the trip, and she thought we got lost. *

27. It was very funny to tell her our story and see the emotions on her face, not believing me. Finally, she said that instead of Mr. Robert we should have taken a/an _____ who would be able to predict the weather and tell us to go home before the storm. I said next time I'll take her! *
